Draken – New Product!

Bike stand

Design 02landskap

The Draken bike rack was originally designed for Olof Palmes plats in Gothenburg, home to the Draken cinema. Inspired by 1950s architecture, the rack's simple lines and fine details create a classic and timeless look. The flowing pattern of the arches is not only aesthetically pleasing but also practical, accommodating both large and small bikes. 02landskap has also designed a planter guard in the same series.

Dimensions and weight

Length: 60 cm
Width: 5 cm
Height: 80 cm / 60 cm

Material dimensions

Made of 40 mm flat steel

Product numbers and combinations

Ö03-30 Draken Bike stand with double arches

Append to product number

METAL SURFACE FINISH

Vert 2300 Sablé (Green)

Pig 2900 Sablé (Grey)

RAL 6009 (Dark green)

|---|-----------------|
|  | RAL 6009 |
|  | RAL 1023 |
|  | Vert 2300 Sablé |
|  | Gris 2900 Sablé |

Materials and surface treatments

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Hot-dip galvanized

Hot-dip galvanizing provides very strong protection against corrosion. The steel is dipped into a bath of hot liquid zinc. The zinc attaches and creates a surface coating on the steel part, which is then taken out of the bath and drained of excess zinc.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

In-ground

Cast in ground.

The bike stand is delivered assembled.

Maintenance

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.
